Bachelor of Computer Science and Engineering

2022 - Present

UBT - University for Business and Technology (Undergraduate)

PORTFOLIO MANAGEMENT PROJECT

Ticket System for the Football Federation of Kosovo – FFK

June 2024

Web Application - University Project (Lab Course 1)

Technologies Used: .NET WEB API, React JS, MySQL, Bootstrap

- Included an online ticketing system with seat allocation.
- Developed a management system for the Football Federation of Kosovo (FFK) to track performance of national and Superliga teams, including player stats.
- The platform handled information on matches, results, referees, player nationalities, and individual statistics.

Grieta Hospital

February 2024

University Project (Web Design and Development)

Technologies Used: PHP, HTML, CSS, JavaScript

- Developed a web page for managing hospital operations: patient records, appointments, and billing.
- Implemented modules for patient registration, doctor schedules, and medical history.
- Created an intuitive interface for easy navigation by staff and patients.
- Integrated a secure login system for data privacy and authentication.

PROFESSIONAL EXPERIENCE

Bridge Business Consulting, Gjilan
